WHOLESALE TRADE-LIST

SEPTEMBER - 1945

GLEN SAINT MARY
NURSERIES COMPANY

63 Years in Business

GLEN SAINT MARY, FLORIDA

Conditions of Sale

PRICES: Prices herein are for the Wholesale Trade only and cancel all previous lists. They are based on current conditions and therefore subject to change WITHOUT NOTICE.

It is intended that orders placed at prices in this list shall consist of not less than 5 plants of a kind. Orders for Roses must be in multiples of 5 and no fewer than 5 Roses will be shipped.

5 will be furnished at the 10 rate.
50 will be furnished at the 100 rate.
500 will be furnished at the 1000 rate.
All prices in this list are f. o. b. shipping point.

PACKING CHARGES. No charge will be made for packing small potted and bare-rooted stock or bulk car lot and truck load shipments. Packing will be charged extra at cost on tubbed specimens and balled and burlapped plants and large bare-rooted plants. Schedule of packing charges will be furnished if desired.

TERMS. Cash in full with order, 5% discount. To those of established credit, 2% within ten days or net thirty days. Interest charged after thirty days. Cash or satisfactory references are required of those not having established credit with us. On C. O. D. shipments 25% will be required with order.

RESERVE ORDERS. Reserve orders are accepted upon the condition that they shall be void should injury befall the stock before shipment from any cause not under our control. Stock held in our fields on reserve long enough to grow to larger grade will be billed accordingly at shipping time. On large reserve orders for stock to be shipped at intervals or more than 30 days later, we require 25 per cent advance payment. If booked and not reserved by cash payments, we are not responsible for any variety or size being on hand when stock is ordered shipped.

GUARANTEE

We guarantee our stock to be well grown, true to name, properly packed and shipped according to instructions. In no case shall our liability be more than the original invoice value. There shall be no nursery stock sold under a guarantee to live, except with the understanding that, if it dies, it will be replaced **as soon as possible**, at not less than 50% of purchase price. Claims for replacement must be made in writing within 60 days after receipt of plants.

CLAIMS. Claims for whatever cause will receive consideration only when made within ten days after receipt of stock. We will not be responsible for failure to fill orders in full or for any damage or delay to stock after delivery to the transportation company.

SHIPPING INSTRUCTIONS: We ask our patrons to furnish complete shipping instructions with each order, both as to destination and mode of shipment. Otherwise, our best judgment will be used.

DELIVERY BY OUR TRUCK: If we deliver, truck charges will be 15c per mile on a round-trip basis. If trailer is used, add one-third to cost of delivery.

FELLOW TRADESMEN:

The WAR is won, and now the PEACE challenges our best efforts. Naturally, we plan to meet that challenge with good nursery stock, well grown and fairly priced. The Green Light is on, and now to see how quickly we can get back to normal!

All of us here appreciate to the fullest the fine co-operation we have had from you, our customers. You are to be commended for your patience, particularly in putting up with the much-decelerated tempo of the past months. Thanks a million!

Duke of Windsor	Salmon
Frederick the Great	William Bull

Variegated

George Lindley Taber

A sport of Omurasaki originating here, and named for our founder, the late George Lindley Taber.

Its predominant color is soft lavender - pink, faintly streaked with darker pink and more distinctly mottled cerise toward the throat...slightly fragrant, the flowers are nearly as large as those of popular Formosa.

It is a rapid grower. Extremely resistant to cold and valuable as a substitute for or in combination with the lavenders such as Formosa and Phoenicea where a harmonious color-break is desired. It usually blooms here in March.

CAMELLIA JAPONICA**GROUP No. 1**

ALBA PLENA—Early, full double, wax-like, very regular flowers. Blooms freely and regularly. One of the finest whites.

CANDIDISSIMA—Fine late white, perfectly imbricated with appearance of six pointed star. Good for florists' work.

CHANDLERI ELEGANS—Flowers are double, very large, and of a cherry-red to rose pink color, spotted with white. The center petals are interspersed with yellow stamens.

GLOIRE DE NANTES—Large, semi-double, very deep rose, long yellow stamens.

HERME—Large, peony form; white with red and pink stripes and splashes.

HORKEN—Semi-double flowers; white with pink or rose markings.

KELLINGTONIA—Large, peony-type flowers of rich pink, shading lighter in the center.

MARIANNA GAETE—Imbricated flowers of rich Pink, shading lighter in the center.

***MARQUISE D'EXETER**—Full, large peony form of clear satiny-pink. Stamens interspersed even to outside rows of petals. Petals in center erect, sometimes folded back.

MATHOTIANA ALBA—Usually white but sometimes striped with pink. Large double flowers.

***MATHOTIANA RUBRA**—A very large, full, rose-formed flower, with deep rose-red petals, the outer edges of which turn purple as the flower gets older. A good grower and one of the finest of the Camellias.

MRS. HOVEY—Large Pom-pom type, loose petals with interspersed stamens. Color from white suffused pink to light pink, deep pink. Varicolored. Midseason to late bloomer.

PINK PERFECTION—Flowers are medium size, shell pink. Free flowering.

PROFESSOR SARGENT—Very double peony form, varying from clear crimson to light red. One of

SEMI-DOUBLE BLUSH—Semi-double, deep flesh pink with yellow stamens.

ROSES

The majority of our roses are budded on Multiflora root, which we have found from many years trial to be the most generally satisfactory understock for our soils. Multiflora makes a stout, spreading root system that stands transplanting well and adapts itself readily to the multitude of soil conditions found in Florida and the South.

The varieties below are among the best of all rose types—some old favorites, some quite new, but all tested thoroughly here before they are included in our lists.

We prefer not to begin shipping roses until the bushes are dormant in late November or early December—but let us have your orders without delay, for digging at earliest safe date.

PINK

BABY RAMBLER—Dwarf pink, cluster rose.

BETTY UPRICHARD. Pink. Strong grower. Disease resistant.

CECILE BRUNNER. Double flowers of light pink with yellow bases.

CLIMBING PINK RADIANCE. Continuous bloomer.

COLUMBIA. Glistening rose-pink. Disease resistant.

DAINTY BESS. Large single flowers, delicate rose-pink.

DUCHESSE DE BRABANT. Fine pink.

EDITOR MC FARLAND. Dark pink.

EDNAH THOMAS. Climber. Salmon-rose flushed orange.

ELSE POULSEN. Large clusters of semi-double, bright pink flowers.

MME. CAROLINE TESTOUT. Silvery pink.

MME. LOMBARD. Clear light pink to deeper tint. Strong grower.

Read Conditions of Sale on Inside Front Cover

ROSES (Continued)

MINNIE FRANCIS. Deep pink. Strong grower.

MRS. CHARLES BELL. Shell-pink. Vigorous grower.

MRS. R. M. FINCH. Rosy pink, borne in large clusters. Vigorous grower.

PINK CHEROKEE. Climber. Single.

PINK KILLARNEY. Almost single, delicate pink.

PINK RADIANCE. Continuous bloomer.

SALMON SPRAY. Huge clusters of large, salmon-pink flowers.

RED

AMI QUINARD. Deep, rich velvety crimson-maroon.

CLIMBING ETOILE DE HOLLANDE. Red. Good bloomer.

CLIMBING RED RADIANCE. Deep rose-red.

ETOILE DE FRANCE. Large crimson flowers.

ETOILE DE HOLLANDE. Red. Good bloomer.

HADLEY. Crimson-red.

LOUIS PHILIPPE. Dark red.

PAUL'S SCARLET. Climber. Brilliant scarlet.

RED CHEROKEE. Climber. Single.

RED RADIANCE. Deep rose-red.

WHITE

CALEDONIA. Creamy white buds opening to snowy flowers.

DEVONIENSIS. Climber. Creamy white, with delicately shaded pink center.

FRAU KARL DRUSCHKI. Fine white. Sometimes called White American Beauty.

K. A. VIKTORIA. Pure white.

ROSES (Continued)

MARIE VAN HOUTTE. White, tinted at center with pale lemon and on outer petals with pink.

WHITE CHEROKEE. Climber. Single.

WHITE KILLARNEY. Semi-double, open flowers.

WHITE MAMAN COCHET. White, tinted pink on outer petals, pale yellow centers.

YELLOW

ALEXANDER HILL GRAY. Pale lemon-yellow. Disease resistant.

CLIMBING PERLE DES JARDINS. Very satisfactory yellow climber.

GOLDEN OPHELIA. Golden-yellow in center, paling toward outer petals.

ISABELLA SPRUNT. Large pale yellow blooms.

LADY HILLINGDON. Apricot-yellow. Disease resistant.

LUXEMBOURG. Rich apricot-yellow, shaded with copper.

MARECHAL NIEL. Climber. Full yellow flowers.

MRS. AARON WARD. Full double flowers of yellow and pink.

ROSLYN. Ruffled flowers of rich yellow.

SAFRANO. Saffron and apricot buds, semi-double flowers. Disease resistant.

SUNBURST. Clear yellow, with golden orange tints in center.

TALISMAN. Orange and copper tones, suffused with pink.

HOLLY, Ilex Dahoon, Grafted—Leaves bright and glossy branches literally covered with bright red berries. One of the most valuable broad-leaved evergreens.

HOLLY (Ilex Opaca), Grafted.

Our American Hollies are grafted from the finest selected strains of fruiting trees and should not be compared with seedlings. Choose any one of the seven types offered below; or, better still, order the whole collection; and you will never again be satisfied with ordinary hollies.

Bailey. An old fashioned Christmas type holly; with large, spiny leaves and producing fair quantities of attractive red berries.

East Palatka. Foliage light green of medium size, almost smooth, and resembling Dahoon holly in appearance. A regular bearer of immense quantities of bright red berries.

Howard. The most popular variety we grow. Foliage very dark and glossy, with some spines; berries red and attractive, excellent.

Hume No. 1. A vigorous grower, spreading in habit, with large, almost spineless leaves. Bears regularly and the fruit is red and of large size.

Hume No. 2. Leaves large and spiny, fruits red, large, and produced in fair quantities.

SHADE TREES (Continued)

Lake City. A vigorous grower, with large, dark, spiny leaves and attractive Orange-Red berries. Prolific. Should be included in every holly collection.

Taber No. 3. A very distinct and outstanding variety, foliage dark green, large and spiny; fruits large, bright red and showy; maintains a perfect pyramidal form without pruning.

WIRE BALLING

Wire Balling is an improved balling method we have found highly successful in digging the larger sizes of some items such as Magnolia, Holly, Oak, Standard Crape Myrtle, etc. The system makes it easy to get larger root balls, more securely held together than is possible with regular B&B handling. This extra margin of safety is often desirable, and the Wire Balling may be applied at the discretion of the customer to other trees and other sizes than those mentioned herein.

FRUIT AND NUT TREES (Continued)**SATSUMA ORANGE**

The Satsuma Orange, in the opinion of many is the most profitable fruit that can be grown north of the round orange territory. From Savannah, Georgia, along the Atlantic Seaboard, south to Jacksonville, Florida—extreme southern portions of Louisiana and Mississippi, it is a good money crop. Our trees on Citrus Trifoliata, grown with the greatest of care, will make paying groves, and the easy-peeling fruit of these fine “Kid Glove” oranges are a welcome addition to the home orchard.

Prices for Owari, Kawano Wase, and Silverhill Satsumas below:

	10	100	1000
$\frac{3}{8}$ -inch caliper	\$ 6.50	\$ 60.00	\$ 500.00

CITRUS FOR SOUTH AND CENTRAL FLORIDA

Our extensive Citrus Nursery near Winter Haven, Polk County, in the heart of Florida's grove belt, specializes in Oranges, Grapefruit, Lemons, Limes and other adapted citrus trees that can be best grown on Sour Orange and Rough Lemon stocks. We suggest you write Glen Saint Mary Nurseries Company, Winter Haven, Florida, for wholesale and dealer arrangements in regard to this class of stock, suitable for Central and South Florida planting, and similar latitudes.

On a map of Florida, imagine a line drawn from Jacksonville in a southwesterly direction through Gainesville to Cedar Key on the Gulf of Mexico—Citrus trees for use south of this line should, generally speaking, be budded on either Rough Lemon or Sour Orange stocks.

PEACHES, Angel, Babcock, Belle of Georgia, Elberta, Florida Gem, Hall's Yellow, Jewel, Luttichau, Peen-to and Waldo.

BABCOCK PEACH—Exceedingly attractive red-cheeked peach with white flesh; remains hard until thoroughly ripe. Flavor mild and non-acid. Fruit is medium size, running to large under some conditions; clings persistently to trees through severe windstorms. Reportedly, the Babcock never misses a crop, which in Peach circles is remarkable. Fruit matures here in August. The variety is particularly adapted to our Southern climate and is free of many ills usually afflicting Southern Peaches. We believe it may be a valuable sort, both commercially and for the home orchard.

CULTURAL NOTE: Because of its prolific habit, this variety should be heavily pruned and thinned for best results.
